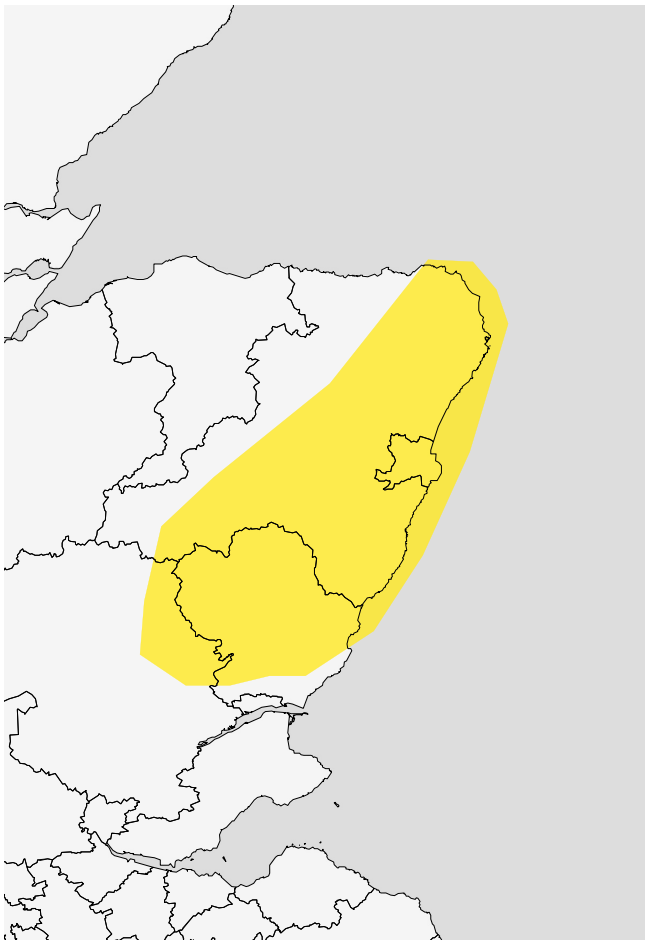
Yellow warning
Rain

Between
03:00 Sun 20 Nov 2022 and
15:00 Sun 20 Nov 2022



Following recent high rainfall totals and flooding further heavy rain may bring some renewed, but more limited, flooding and disruption.

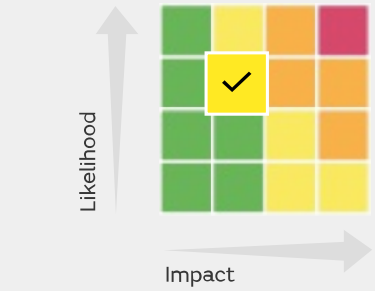
What to expect

- Flooding of a few homes and businesses is likely
- Bus and train services probably affected with journey times taking longer
- Spray and flooding on roads probably making journey times longer

Further details

A band of rain will move in from the west early on Sunday morning, turning heavy at times, before clearing away to the east in the afternoon. 15-25 mm of rain will fall quite widely, with perhaps 40 mm for the most exposed sites.

While these totals are not especially high, following the recent very wet weather and saturated ground, they would still be enough to bring some renewed disruption.



✓ Medium likelihood of low impacts
